Highly skilled MERN Stack Developer with expertise gained through self-study and hands-on projects. Proficient in MongoDB, Express.js, React.js, and Node.js, with a strong foundation in building robust and scalable web applications from scratch. Committed to continuous learning and improvement, with excellent problem-solving abilities. Thrives in dynamic, fast-paced environments

TECHNICAL SKILLS

Languages and Core: JavaScript (ES6+), OOPS.

Frontend-Development: HTML, CSS3, Tailwind CSS, Bootstrap, JavaScript, React.js, Framer Motion, Material UI.

Backend-Development: Node.js, Express.js, MongoDB, RESTful APIs.

Other tools and skills: Git, GitHub, Postman, JWT, JSON.

MERN Stack Development Course

Syneefo Solutions— Aug 2024 – Jan 2025

I have successfully completed a **MERN Stack** course, gaining hands-on experience in full-stack web development using **MongoDB, Express.js, React, and Node.js**.

I built responsive, real-world web applications, created dynamic UIs with React (using Hooks and Redux), developed RESTful APIs with Node and Express, and implemented **JWT-based authentication** and **MongoDB integration**.

I also learned **Git & GitHub, deployment** on platforms like Vercel and Netlify, and followed best practices for **debugging** and **performance optimization**.

This course gave me a strong foundation to build modern, scalable full-stack applications.

MERN Stack Development Intern

Syneefo Solutions— Jan 2025 – Feb 2025

- Developed and deployed full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) for real-world use cases.
- Designed and consumed RESTful APIs for dynamic data flow between frontend and backend systems.
- Contributed to the development of an e-commerce platform and personal portfolio system with features like authentication, product management, and responsive design.
- Leveraged **Tailwind CSS** for sleek, mobile-first UIs and used **Postman** to rigorously test backend endpoints.
- Collaborated via **Git & GitHub**, adhering to version control best practices and Agile workflows.
- Gained practical experience in full-stack debugging, deployment, and performance optimization.

Portfolio

Tech Stack: React.js, Framer Motion.

This portfolio website is a personal platform crafted to showcase my front-end development skills, creative projects, and design sensibilities. Built using React.js and animated with Framer Motion, the site reflects my ability to create interactive, responsive, and modern user interfaces. From smooth transitions to component-based design, this space is a living canvas of my front-end journey.

Real Estate (Real Estate Application)

Tech Stack: React.js, Node.js, Express.js, MongoDB, React Router DOM, React Testing Library

Real Estate Application is a modern web-based platform designed to simplify property browsing, enhance user experience. This application provides a seamless way to browse, list, and manage properties with advanced search and filtering options. With features like interactive property listings, real-time availability updates, and a user-friendly interface, the platform ensures efficiency and transparency in the real estate market.

E-Commerce Platform (Clothing Store)

Tech Stack: React.js, Node.js, Express.js, MongoDB, React Router DOM, React Testing Library

The E-Commerce Platform is a full-stack web application tailored for a modern online clothing store. It allows users to effortlessly browse apparel, view detailed product pages with size and color options, add items to their cart, and securely complete purchases. With advanced filtering by gender, size, category (e.g., shirts, dresses, jeans), and real-time stock updates, users can enjoy a smooth and intuitive shopping experience. Designed with a sleek and responsive interface, the platform ensures an engaging experience across all devices. Whether you're selling streetwear, ethnic fashion, or casual wear, this solution is scalable and ready for real-world fashion commerce.

STRENGTHS
